3 About GROUP Technologies AG	15

1 Parameter Function

The `Toolkit_Logo` parameter ensures that a product logo is displayed in messages sent by the MailGrabber (`Toolkit_Demon ...`), similarly to function modules such as `securiQ.Watchdog`. Default value (even if parameter is not set): `GROUP`. Furthermore, this parameter can now also contain the following:

`<Company>;Color1;Color2` where `<Company>` represents the text appearing in the notification instead of `GROUP`. `Color1` is the color for the `<Company>` text and `Color2` the color for the module name. Both `Color1` and `Color2` are specified as Notes color values using the following syntax:

```
Toolkit_Logo=<Company>;Color1;Color2
```

To use no logo at all, set the parameter to **None**. Syntax:

```
Toolkit_Logo=NONE
```

2 Finding out the Notes Color Value

1. Open the Notes client
2. Open a Notes text document
3. Open **Properties** → **Text** → **Color**
4. Select desired color and determine the Notes color value. To do so, count the colors in the Notes table from left to right and from top to bottom. Start counting at the top left corner at Black, i.e. Notes color value = 0; RGB = 0, 0, 0.

The following tables list the RGB values* and the Notes color values.

The first table in Section 2.1 shows the 16 colors of the Notes standard colors.

In the second table in Section 2.2, the first value is the Notes color value to be set as parameter in the `notes.ini` file (`NOTES_COLOR_BLACK` is "0" and "239"). The following three digits represent the corresponding RGB values.

In the third table in Section 2.3, the colors are sorted by RGB values in ascending order. Thus, if you know the RGB values, use this table to determine the Notes color value.

Only up to 240 Notes color values can be entered in the **notes.ini** file. If there is no matching Notes color value for your RGB values, try selecting a similar value from the 240 colors.

* RGB is a color model used by all computer monitors. All screen colors are made up of a combination of three basic colors: Red, Green and Blue. All three colors at 100% add up to White. The highest value is 255 = 100%. Thus the RGB values for White are 255/255/255.

2.1 Notes-Colors

Color name	RGB values	Notes value
NOTES_COLOR_BLACK	0, 0, 0,	0 or 239
NOTES_COLOR_WHITE	255, 255, 255,	1
NOTES_COLOR_RED	255, 0, 0,	2
NOTES_COLOR_GREEN	0, 255, 0,	3
NOTES_COLOR_BLUE	0, 0, 255,	4
NOTES_COLOR_MAGENTA	255, 0, 255,	5
NOTES_COLOR_YELLOW	255, 255, 0,	6
NOTES_COLOR_CYAN	0, 255, 255,	7
NOTES_COLOR_DKRED	128, 0, 0,	8
NOTES_COLOR_DKGREEN	0, 128, 0,	9
NOTES_COLOR_DKBLUE	0, 0, 128,	10
NOTES_COLOR_DKMAGENTA	128, 0, 128,	11
NOTES_COLOR_DKYELLOW	128, 128, 0,	12
NOTES_COLOR_DKCYAN	0, 128, 128,	13
NOTES_COLOR_GRAY	128, 128, 128,	14
NOTES_COLOR_LTGRAY	192, 192, 192,	15

2.2 Colors sorted by Notes Color Values

Notes value (sorted)	RGB values
0 or 239	0, 0, 0,
1	255, 255, 255,
2	255, 0, 0,
3	0, 255, 0,
4	0, 0, 255,

3 About GROUP Technologies AG

Since 1992, GROUP Technologies has been a leading developer of e-mail security software and is active in the high-growth market for content security. With its forward looking products, GROUP is a recognized innovator in e-mail security, organization, and management. GROUP's integrated products are available for Microsoft Exchange and Lotus Domino platforms.

Both small- to mid-sized-companies and large corporations use the GROUP iQ.Suite to optimize e-mail investments and performance while increasing productivity.

The iQ.Suite uniquely addresses a comprehensive range of e-mail and business-process security issues including cryptography, virus protection, content filtering, e-mail archiving, image analysis, and legal disclaimers.

Running on multiple operating systems, iQ.Suite solutions allow enterprises to manage, monitor, and protect intellectual assets while ensuring compliance with policies and regulatory requirements such as SEC and HIPAA.

GROUP's products, used by more than two million users at Global 2000 companies, are available through direct sales or OEM partners and resellers. With worldwide headquarters in Karlsruhe, Germany and offices throughout Europe, GROUP's North American division is located in Greater Boston, Massachusetts.
